

## WHITEWASH FOR HIGH SCHOOL

(From Sunday's Advertiser.)

Interscholastic League Standing. P. W. Pct. Kamehameha .. ..... 8 St. Louis ...... 9 High School ..... 9

St. Louis, 11; High School, 0. (This game counts for two games, by

agreement.) Both the regular scheduled game and

the postponed games between the High School and Saints were played off in one game at Alexander field, by special agreement, yesterday afternoon and the Saints whitewashed the Mc-Kinleyites by 11 to 0.

It was not a very interesting game on account of being too one-sided and the championship having been already won by Punahou. There is one more game to be played, and that will be tomorrow at Kamehameha between the Puns and Kams. Should the lat-ter win, they will take an easy second place in the series, with a differ-ence of only one game between them and the Puns: should they lose, they will be tied with the Saints for sec-

The feature of the afternoon was the excellent pitching of Pedro and the swatting done by the winners in the early part of the game. The High School tried three pitchers, but they put the best one in last, and it was not a case of making a success of the feast by reserving the best wine until the end.

Way that they did a week ago by taking by the game and not getting rattled in a pinch.

Oom Paul Burns pitched nine innings when his place was taken by the feast by reserving the best wine until the end.

Try Three Pitchers.

Rice went in first and was found at every curve. Then Henry Chilling-worth took his place. But Chilly was not in good form, and Elisha Andrews entered the box in the seventh. He was in excellent trim and soon had the Saints guessing. But It was too late. The Thomas Square kids had eleven runs to make to tie, and they could not find that big Pedro at any stage, though the Saints were sent away in jig time, the same thing happened to their opponents, and the game was only shortened by Elisha's excellent

First Run in Second.

The winners made their first in the second inning. Quni walked, but died at second with Pedro safe. Chinnito, the base-stealing kid, ran for Pedro, and at once showed how well he has been trained in the burgling business by swiping two bags. Then one Augustus Heitmulier Danzig Dreier swatted out a bingle, and Chinnito fied

The first signs of a balloon ascension came in the fourth. The High School was put away easily enough, and Asam lingered at the plate long enough to get to first on a bad foozle by Rice. Quni walked the genial Asam to second, and the two of them were sent on a bag each when a loud grin belonging to Pedro halted at first on

The bases were full and none down. the famous Augustus, etc. doubled. It was a peach of a swat. It made a big hole in the air round center field where there was nobody to stop it, and Asam, Quni and Pedro all romped before the ball was any-where near the infield. That was three runs in a bunch.

One More Run.

Three runs, a man on second, and Robinson bingled Dreier to third and then a funny thing happened. Robinson started to steal, and Norton, with a man on third, threw to second to get him out. Of course, Augle easily romped, and the throw turned out to be a had one. This prompted Robinson to try for third, he was not quick enough and put out. Then Yeichi fanned and was put out. Markham died. Four runs. Score 5 to 0 for the Saints.

Chilly took the box in the fifth and met a catastrophe. They made six off Chinnito made himself liked by his team once again by tripling. ona skied, but Asam walked and stole one. Then Quni did the right thing with a bingle and brought Chinnito and Asam home.

The Balloon Ascends.

Pedro was safe on Rice's error, Then while Quni went to second. Dreier hit a short one and Chilly sent to Franco at third. The latter had his foot on the bag when he caught the ball, but failed to touch Quni. The umpire called the latter safe, although the runner was being forced, so that the bases were full again. Then Robinson bingled Quni and Chinnito, for Pedro, in. This was followed by a double by Yeichi which scored Dreier and sent Robinson to third.

The last run was made by Robinson who romped, while Markham was safe on fielder's choice that sent Yeichi to third. Markham then stole second, but Yeichi was out at the plate and Chinnito died on a very pretty double play, Chillingworth to White to Nor

After that Andrews went into the was no more scoring. Yelchi played another very successful game in the outfield and handled some hot ones; he also batted well. Franco made a remarkable one-handed catch, and the High fielding was not bad by any means if they had only had some pitching to live up to.

The official score was:

SAINTS- AB R BH SB PO A E Markham, Sb ... 5 0 1 2 1 1 0 Chinnito, cf ... 5 0 Alona, ss ...... Asam, 2b ..... 4 Pedro, p ... 2 2 Dreier, 1b ... 4 2 Robinson, pf Itobinson, rf.

# GUARDS ARE NOW THE CHAMPIONS

(From Monday's Advertiser.)

- Military League Standing. P. W. Pet, .... 5 5 1,000 .... 5 3 ,600 Pet. 750 Marines 5
500 Marines 5
Fifth Cavalry 5
Fort Shafter 5 At Leilehua.

N. G. H., 8; Fifth Cavalry, 7; 11 innings.

At Aala Park.

Marines, 5; Fort Shafter, 4. The National Guard team is now the champion of the Military League series. With one game left for each of the team to play, they have won all five games they have played so far and, even should they lose against Fort Shafter, which does not seem likely, there is no chance for anybody to get

near them.
Should the Cavalry succeed in defeating the Marines next Sunday at Leilehna these two will tie for second place. If, however, the Marines win they will be an easy second. Good old Fort Shafter game to the very end, cannot do better than last.

It was an exciting game at Leile-lehua yesterday all right. It took eleven innings for the Guards to do the trick but they won out in the same way that they did a week ago by

the ninth inning when, feeling that he was not up to snuff he gave way to Lota.

There were several costly errors made There were several costly errors made by both sides, in fact nearly every error made resulted in a run before the inning was over. Lemon and Sum-ner both played fine fielding games for the Guards without any errors. Dudie not only fielded well but made four hits out of six times at bat, which is going some.

going some.

Licutenant Groninger played a starfielding game for the Cavalry. He
made no errors and sent in some
peachy throws to first. Guyon, the
Cavalry-catcher, did well. This was
his first appearance in the regimental
team and he made a good impression
on his own players and visitors alike.
Kampa is another new one in the Kamna is another new one in the box and he twirled a mighty heady game for the losers. The Cavalry played the best game they have yet put up, and the meeting between them and the Marines next Sunday ought to be a humber. a hummer.

The lineups were: Cavalry—Guyon, c; Kamna, p; Shep-pard, 1b; Bates, 2b; Groninger, 3b; Walters, ss; Butler, lf; Hanson, ef; Dines, rf.

N. G. H.—Soares, e; Burns and Lota, p; Marcallino, 1b; Bushnell, 2b; Smith, 3b; Lemon (capt.), ss; Lota and Burns, lf; Kaai, ef; Sumner, rf.

The weather was hot and dusty but was ideal for baseball. Several of the N. G. H. officers accompanied the team, among them Colonel Ziegler and Major Camara.

#### SPORT NOTES.

The minor baseball situation is still in statu quo, which means that nothing was decided at the meeting of the Riverside League yesterday afternoon. A courteous request came from the C. A. C. committee that the meeting be postponed, as one of their number out of town on business and could not be present. A resolution was therefore passed postponing the meeting until Thursday afternoon at the same place and hour, Mr. Atkinson's office at 12:15

There will be a meeting of owners or Skippers of yachts eligible for the Cooper cup race on June 6, at the Com-mercial Club at 8 o'clock tonight. All those interested are requested to attend as the object of the meeting is to decide on handicaps for the yachts.

George Hernandez has another good one that he sprung yesterday. If you can get enough suckers to take you up, wager that the winning team in a base-ball game will make as many runs in one inning as the losing team does in all their innings and see if you don't come out ahead eighty per cent. A glance at the scores of the Coast games

will show that George is right. Yeichi, if ...... 4 0 1 0 0 0

### KAMEHAMEHA, ONLY YACHT TO FINISH, WINS THE RACE

seven hours forty-one minutes.

It could not by any possible stretch of the imagination be called an exciting yacht race for the Irwin cup yesterday. The only wind there was, was openly and blatantly, yea unblushingly, favorable to the Kam. This is not to detract from the credit coming to Captain Scott for the clever and seamanlike way in which he handled his boat, but there is no getting round it, when but there is no getting round it, when the Kam rounded a stake boat, up would come a little breeze from dead aft, while the other yachts were all in the doldrums.

The most glaring exhibition of favoritism on the part of the wind god was near the finish of the race. Those on the judges boat were just about to make up a pool on whether the Kam would make it in the time limit or not, when the breeze began to freshen and the gallant yacht, with all her kites set, swooped down on the bell buoy.

She doused her spinnaker and ilbed

She doused her spinnaker and jibed mainsail and ballooner for the run to the spar busy. Then the wind dropped altogether and it looked as though it were all off. But not so. That bull was a mere interim. A nice fresh breeze came out of the south and the Kam easily ran over the line with nineteen minutes. minutes to spare.

Two Collisions. Although the race was not exciting, of breeze at the everybody seems to have had a good have happened.

The first mishap was just before the second gun was fired. The Hawaii I. was approaching the line on the starboard tack, with the right of way, and the Kam was falling back from the line on account of being too near, on the port tack. The two yachts drifted close together and Captain Scott put his helm hard a lee, but the Kam would not luff in time and her bowsprit punetured the Hawaii's mainsail, tearing a long slit near the leach.

tured the Hawaii's mainsail, tearing a long slit near the leach.

This bothered Alec Lyle little, if at all. "That's all right," he shouted. "You couldn't help it, and we can sail just as well. It's mighty convenient to have a hole in the sail to jump through when she goes about." And so, what might have led to words and hard feeling, was turned off with a neat jest.

The second collision took place off The second collision took place off Diamond Head. The Gladys was on the port tack and thought she could clear the Helen's bows. Too late Captain King saw that he could not make it and put about. He shot up to windward of the Helene and the latter's bowsprit went through his sail before Captain Whitney had a chance to do anything. Had there been any kind of breeze at the time, this would never have happened.

# G. A. G. AND AALA

By W. Tin Chong. Aalas, 6; C. A. Cs., 2. U. S. M. C., 5; Fort Shafters, 4.

The Anlas defeated the Chinese team yesterday afternoon at Aala Park by the secre of six to two, in the championship series of the Cupid League. This is the second game of the two B. H. 20000112 = 6 out of three series and so it will require one more to decide the champions, which will take place next Sun-day. It was a large crowd which witnessed the contest, but there was no excitement until the seventh inning, when the Aalas scored three men thus leading by the score of three to two in their favor.

The features of the day was the pitching of Tom Pedro, who has been doing such wonderful work in the box lately, that he is now considered as one of the best slabsters ever seen here in an amateur league. His marvelous ratch of a line in the fourth indian catch of a liner in the fourth inning brought forth much cheering from the Burns pitched 9 innings and Lota 2.
Base hits, N. G. H., 10; Cavairy, S.
Struck out, by Burns, 2; Lota, 3; M.
Kamna, 5. Bases on balls, Burns, 4; Lota, 0; Kamna, 3. Hit by pitched ball, Sumner. Home run, Hanson.
Time of game, 2 hours 2 minutes. directly into Fedro's hands and the funniest part of it was that he caught the ball before anyone had noticed it. Apau had an off day, he did not do as well as usual in the box for the dragonlets, especially so in the eighth inning when Souza, Pedro and Fred Luning, each received transportation to the initial sack.

Chinese Score in Fifth.

For four innings, neither team scor-ed, but in the fifth, the Chinese man-nged to send Eng Sang across the home plate. Che Buit died from Sougt to Johnson and Asam failed to meet Pedro. Eng Sang then walked on four balls. Mark then got safe on Johnson's fumble and Sang went to third and Mark swiped the next. Ako made safe on Deponte's error and Sang romped. Mark tried to steal home and

was put out.
The dragonlets' next run was scored in the seventh. Eng Sang bingled, but was caught off first base. Mark was safe on Souza's fumble and reached second on a wild pitch. Ake died at first and Mark went to third. Apau then bingled and Mark romped, Aiona

fanning the air.

Big Doings in Seventh. The last half of the seventh was a big one for the Aalas. Luning walked, but was forced out at second on a hit by Leandro. The latter retired in the same way on Leslie's hit. Flizer received a pass to the initial sack. Then Deponte, otherwise known as ''Red'' among the fans, came in with a big surprise by a home run over to left field, the ball going past Beretania avenue. This scored both Leslie and Flizer, making the score 3 to 2. Ine trick was again repeated in the eighth inning. This time Souza, Pedro and Luning were the lucky ones to cross the plate. Apau went up in a balloon and it took the dragonlets quite a lit-tle time before he was brought back

The C. A. C. team was unable to score in the ninth and this ended the tides, convinces him that game. The final contest will take place harm to the trees at all. next Sunday.

Disputed Decision.

The second contest was won by the U. S. M. C. It was a nice game from beginning to end and everything went along nicely until the ninth inning.

### DEER SCARCE ON MOLOKAI

Dr C. Camp returned from a hunting trip to Molokai yesterday morning, after two weeks spent on the other Island hunting deer and studying conditions. He states that, in spite of the game protection laws, deer seem to very much on the decrease and that one has to hunt long and over much ground to get as much as a shot at one.

Dr. Camp also looked very carefully into the matter of the food that the deer eat. There seems to be a popular impression that they eat bark and thus destroy the trees, but he inspected the contents of the stomachs of several of the animals and found no only of grass and herbs, principally deer grass. This, added to four years of careful study of the habits of the deer in these latitides, convinces him that they do no He discovered that the bronze turk-

eys which were recently introduced on the Island are thriving wonderfully well and the valleys are lively with young broods. The pheasants, on the other hand, seem to be dying out, due principally to the margoose which is rampent on Molokai.

The higher forest lands are lush

with ferns and green shrubs. There has been a pientiful rainfall there recently and the country on the higher ranges is very green and thickly wooded. Dr. Camp made the trip alone and covered a large area of the Island during his stay there.

The Mutual Telephone company will hold a meeting Friday morning to con-sider, among other things, a proposition to increase the capital stock of the corporation.

# DISPOSES OF A NEW QUESTION Comes Quickly, But it Comes to Stay. Got Rid of Ric.

The Supreme Court of the Territory holds that there is no statutory or valid objection to the employment of private counsel in the prosecution of a person charged with crime, the attorney being associated with the regular recognized

Criminal law for merely private ends. Juries would be prompt to show by their verdicts their sense of such misuse of public functions. Indeed, astute counsel would avoid the impression of trying to wreck private vengeance un-der the pretense of assisting in a fair and honorable prosecution of crime."

Claims Not Valid.

Judge De Bolt rendered an interesting decision yesterday in connection with the estate of W. Brash, on a motion for the distribution of the property to the heirs. Judge de Bolt holds that Mrs. Robson is entitled to the entire fire claims of \$800, one of the assets of the estate, and in the course of his judgment on the rival claims set up by Chinese he says:
"This matter comes before the court

on motion of Mrs. Robson for a distri-bution of the said estate. The particu-lar property for distribution is an award of the Fire Claims Commission-ers of \$800. Pang King Chee, for Yee Sing Stables, also makes a claim to this sum of \$500, or such portion there-of as their laterest may account to be of as their interest may appear to be. "Section 7, Act 15, of the laws of "Section 7, Act 15, of the laws of 1901, creating the Board of Fire Commissioners to pass upon the claims of missioners to pass upon the claims of parties who suffered loss of property in the great fire of 1900, reads as follows: 'No claim for speculative or consequential damage or for loss of a part of the rent, were to compensate consequential damage or for loss of a part of the rent, were to compensate the interpretation of the lease all buildings there after erected by the tenant, including there. ess, nor any loss except for the destruction of or direct damage to proper struction of or direct damage to proper ty by fire or removal will be consider-ed by the Commissioners.' It would seem to be the purpose of this statute, not to make awards for the compen-sation of all losses that might have been incurred by persons by reason of that fire, but to a limited extent; name-ly, for the destruction of tangible, obvisical property only. Hence, it folphysical property only. Hence it fol ows that no person had a standing be fore that court, unless he was able to establish by competent and satisfactory evidence that he was the loser of some tangible, physical property, as contra-distinguished from some interest in the

property or some use thereof. "It appears in evidence that the Chinese claimants at one time prior to the fire held a lease which provided that all buildings then upon the premises or any buildings thereafter which provided erected by them on the premises were to remain and become the property the landlord at the termination of the lease. This lease having expired and a new lease thereafter executed, somewhat different in its term but practically the same so far as the questions involved in this matter is concerned, provided also that the buildings erected upon the premises, either by the lessor or by the tenants, should become the property of the landlord. This lease contained no provision allowing the tenants to remove any buildings and of course they could not have sold or otherwise disposed of them; nor could said buildings have been levied upon or sold under execution on a judgment against the ten the leasehold interest. the tenants apart from

Loss Not Tangible. "By the well known rule of law,

remises thus erected upon the land of the landlord, become his property and it is not unreasonable to infor that the landlord contemplated or looked upon the retaining of the buildings at the end of the lease as part of his rent. Sorely the lessor would have charged more cash rent for the premises if the tenant had been allowed the right to remove the buildings during or at the termination of the tenancy than if he were to receive back at the termination of the lease the bare land; but the of the lease the bare land; but the landlord took the precaution in this be appointed guardian of Lily K. Macase to exact a certain amount of each knull. The property belonging to the rent and also that at the termination minor consists of real estate.

Kamehameha Cadets.

Kamehameha School cadets who came to town yesterday, being their "day off" from school duties, made a very on' from school duties, made a very favorable impression. They are now wearing the new uniform cap of gray with a black band, and the school mon-ogram "K. S." at the peak. Their uniforms are also being made to fit properly and are no longer the loose bags of former years. Under the in-struction of a regular army officer from Fort Shafter the battalion is becoming Fort Shafter the battalion is becoming a very soldierly looking body of young

The Entire Battalion.

The item which appeared in Sunday morning's paper in regard to the dance to be given at the Young Hotel June 4, 1909, is in error. It should have read, to be given by the Marine battalion, which includes all enlisted men. Major Long and all the Marine officers are taking an active interest in it. Invitations were issued yesterday, as fol-lows: You are cordially invited to at-tend the first annual ball to be given by the United States Marine battalion, Alexander Young Hotel, Friday even ing, June 4, 1909, at 8:30 o'clock.

Dix Sails Today.

The United States Army transport Dix will sail for Senttle today at about noon. She had not quite finished last night discharging the 5000 tons of Nagasaki coal which she brought here, but the work will all be done this morning. Yesterday afternoon the greater part of the Hawaiian exhibit for the Alaska-Yuken-Pacific Exposition was loaded on the Will Cooper and several others will be passengers on the boat, they having

charge of the exhibit. . . . . . . . . . . . . . . .

of the lease all buildings then upon him to some extent for the use of the land, as well as the monthly cash rental to be paid for the use of the land. That being true, the buildings upon the land at the time of the execution of the lease, and the buildings erected by the tenant at any time during the existence of the lease, being the preperty of the landlord, the tenant had only the use of the premises with the

improvements.
Within two, possibly three months after the fire, the tenants abandoned the premises and paid no more rent thereafter.

"This case is clearly distinguishable from one wherein the tenant has the right to remove the buildings during the existence or at the termination of the tenancy. In such a case the build-ings would be the personal property of the tenant; he would be the owner, to and the destruction of or damage to such buildings would bring it clearly within the provisions of Section 7 of Act 15 already referred to, and the Legislature contemplated, as it seems

to me, just such distinction.
"In the destruction of the buildings in question, what did the tenants losef They lost no tangible or physical property so far as the buildings were conbelong to them. They had the use of the buildings and could not legally be deprived of such use during the exis-tence of the lease, and in contemplation of law that is all they lost—the use of the buildings. The Act expressly

of the buildings. The Act expressly provides that compensation is not to be allowed for use of buildings.

"Therefore, it is ordered that the \$800, proceeds of this fire claim, be paid by the elerk of this court, is whose hands the same has been deposited by the administrator with the will unnexed, to Mrs. Robson, the per-son entitled thereto."
